## Course Outline

This workshop focuses on technique and learning the four levels (Parameter, Syllable, Complex and Surface) of prompting that support the broader, holistic philosophy and approach of PROMPT.

### Day One

- Video exemplar of PROMPT Overview of the philosophical and theoretical underpinnings of PROMPT Introduction of Motor Speech Hierarchy and Parameters Video review of breakdowns at each stage
- Continue observation of client tapes/functional speech system analysis
- Principles of physiological support, air-stream management, mandibular, labial-facial and lingual control
- Introduction of voiced/voiceless and nasal contrasts; vowels; and bilabials
- PROMPT practice, CV and CVC combinations
- Introduction of lingua-alveolars, labial dental and rounded vowels. Practice combinations

### Day Two

- Worksheet #1 Surface PROMPTs
- Video review of Motor-Speech Hierarchy
- Introduction of short vowels and diphthongs. Sibilants and liquid. Contrast short phrases -with vowel height differences
- Finish all consonants, affricatives, and semi-vowels
- Worksheet #2: Complex PROMPTs
- View video of two clients developing functional units. Practice combinations of motor-phoneme units
- Practice all above motor-phonemes in CV's, VC's and words

### Day Three

- (Syllable prompts) Review of PROMPTs and practice time
- Complete Worksheet #3: Identification of Planes of Movement
- Pair practice and prompting phrases (Surface PROMPTs)
- Video-taping of partner practice with short phrases
- Treatment Planning
- Continue treatment planning with group activity

## Course Objectives

This 3-day intensive workshop focuses on teaching the technique of PROMPT. The training is hands-on tactile-kinesethic input and emphasizes the need to integrate this into holistic therapy approach.

Participants will be able to:

- Describe the philosophy of PROMPT and its application principles.
- Apply different levels of PROMPTing (Parameter, Syllable Complex, Surface), as appropriate to the selected case at a BASIC (phoneme, CVC, or phrase) level.
- Demonstrate a working familiarity with the Motor-Speech Hierarchy.
- Analyse, using the Systems Analysis Check list, the strengths and weaknesses of a client's motor-speech system.
- Design one therapy activity that utilizes all of the above.
